### Familiar With

- Laravel, Java, C#
- Python
- ASP.NET / .NET
- Android Dev, Kotlin

## LANGUAGES

English

French

Turkish

Arabic

## INTERESTS

Cooking

Sports

## PROFILE

Software development student who completed a two-year program at Institut CIEL in Tangier in 2026 and plans to continue into a third year toward a Licence/Bachelor's degree. I develop web and mobile applications using JavaScript, React, React Native, PHP and MySQL. My principal completed project is TangierCart, presented during my second-year soutenance. I am seeking an internship, a pre-employment internship or a suitable junior opportunity in Morocco.

## PROJECTS

**TangierCart** — Smart Digital Card System tangiercart.vercel.app  
Principal completed project — presented during second-year soutenance

- Built a functional mobile and web application connected to a PHP/MySQL backend.
- Implemented OTP and PIN authentication flows in a development environment.
- Developed a working admin dashboard for managing users and services.
- Integrated a functional QR code system for scanning and access.

**Tech:** HTML, CSS, React Native, PHP, MySQL, JavaScript

**GYMCOO** — Fitness Platform | Backend in Progress gymcoo.vercel.app

- Completed the responsive frontend using HTML, CSS and JavaScript.
- Built registration, login and profile-management features connected to PHP/MySQL.
- Additional backend functionality remains in development.

**Tech:** HTML, CSS, JavaScript, PHP, MySQL

**StudySphere** — Study Platform (Team Frontend Prototype)

- Collaborated with a team to build the frontend prototype of a student platform for study groups, shared resources and events.
- Used GitHub for team collaboration and code management.

**Tech:** HTML, CSS, JavaScript

### Additional Frontend Projects

studify-azure.vercel.app · skill-crafter-omega.vercel.app

teletravail-final.vercel.app · tangier-furnish-v1.vercel.app

## PROJECT EXPERIENCE

**Personal & Academic Projects** 2024 – Present

Self-directed, personal and academic work — Tangier, Morocco

- Designed and developed several personal and academic web and mobile projects, ranging from frontend work to functional full-stack builds.
- Published 5+ project demos on Vercel.
- Applied consistent, responsive UI practices across desktop and mobile.
